# TIPS

- ◆ Recycled & reconditioned plastic barrels formerly used for food product shipping
- ◆ They are modified and assembled with a spigot and a screen enclosure for the top
- ◆ All barrels are 35-45 inches tall
- ◆ A 1/4 inch rain can fill a 55 gallon rain barrel
- ◆ Automatic diverter will divert water back to the original downspout automatically when barrel is full
- ◆ Linking hose is used for linking 2 or more rain barrels together
- ◆ Screening add-on keeps out debris from roof and aids in keeping mosquitoes out
- ◆ More pictures and descriptions can be found on [www.Upcycle-Products.com](http://www.Upcycle-Products.com)
